The purpose of this guide is to assist faculty, staff and students in scheduling classrooms that will reduce energy impact. Here are our recommendations for efficient classroom management:

1st Choice - Classrooms that are in areas with HVAC scheduled 24/7.

2nd Choice - Classrooms in which HVAC is generally scheduled M-F from 8 am - 5 or 10 pm OR may be scheduled as needed.

3rd Choice - Classrooms in which HVAC is generally scheduled only as needed.

NOTE: The guide offers third-party recommendations on energy efficiency. It is a general guideline to help minimize environmental impact. The guide includes strategies for classroom management to reduce energy impact.
